

## "Gulf Troubled Waters Community Forum"

Sunday 7<sup>th</sup> March 2010

[Cove Sports & Community Club \(Club Cove\)](#)

Oval Road Hallett Cove

Co-Partner [Save Our Gulf Coalition](#)

"Gulf Troubled Waters" Forum provides the community a unique opportunity to understand a broad spectrum of environmental issues associated with Gulf St Vincent through the eyes of the Mid-South Coast. Never before has the Mid-South Coast had to contend with developments which have resulted in changes to its creeks and rivers. This has impacted on the production and movement of sand around the coast. At the end of 2010, in addition to stormwater and wastewater the marine ecology will have to deal with desalination discharge. The forum will discuss the consequences and what is being done and can still be done.

Tea and Coffee will be available and attendees may also bring their own lunch. Lunch is not provided but may be ordered at the time of Registration. Pre-registration is requested and please E-mail Maxine Jones [maxchris@adam.com.au](mailto:maxchris@adam.com.au) or phone (08) 8294-8612. A gold coin donation will also be appreciated to help cover the cost of the venue.

### Confirmed Speakers:

- Introduction to Mid-South Coast Environmental Issues - [Ian Dyson](#)
- Impacts on Adelaide's Seagrass Meadows & Reefs - [Simon Bryars](#)
- Impact of Adelaide Desalination Plant 140 GL Toxic Brine - [Jochen Kaempf](#)
- Licensing of the Adelaide Desalination Plant - [Gerard Hocking](#)
